

Gen 7 Sea Pump Horizon Application Notice

625-4101

MerCruiser offers the Horizon series engine with a 7" sea pump pulley that the standard #625-4101 can be used to replace by simply swapping the belt to a Dayco #5061230. This has been tested on a couple engines with great success. Otherwise one can always simply change their pulley from their Horizon based pump onto the 625-4101 or 625-4102 pump and they're good to go
