Re: Sales of Freshwater Cooling Kits
EconoKool Kits 4068-4068F & 4008-4008F

We appreciate your business in the sales of our freshwater cooling kits. We have put together a checklist which will help ensure that your customer receives the correct application for his engine. Please provide us with this information when you place an order.

1. Who marinized the engine – i.e., Mercruiser, Crusader, OMC, Volvo, other? _____
2. Year of Engine? _____
3. Make of Engine – i.e., Chevrolet, Ford, Chrysler? _____
4. Cubic inch displacement of engine? _____
5. Does engine have standard carburetor? Yes or No
Kit will not work with multi-port fuel injected engines.
6. Inboard, stern drive, v-drive or jet drive? _____
7. Type of exhaust manifolds – original equipment? Yes or No
8. If full system is ordered, can manifolds be cooled? Water must enter bottom and exit top near riser. Yes or No
9. Does customer understand the heat exchanger mounts off engine with universal mounts that we supply? Yes or No
10. Does customer understand heat exchanger *must* be mounted at or below inlet of fresh water circulating pump? Yes or No
